

Quidditch VR

Quidditch is a fictional sport from Harry Potter book series, which is played by witches and wizards riding flying broomsticks.

In this VR game, you will be playing Quidditch as a single player against magic enemies that try to knock you off of your broom. You will practice flying with your Nimbus 2000 broom and score by throwing quaffles through the hoops. After each successful throw, a quaffle will appear at a random location in the field. Magic enemies will follow you and you lose one life if you get hit. The goal is to reach the winning score without losing all of your lives!

Left: Fly

Right: Pick-Up and Throw

Super Speed!

Start flying
Stop

Press to pick up quaffle
Release to throw/drop
quaffle

The left controller is your broom, point it in the direction you want to go!
